

## TECHNICAL INFORMATION AND SPECIFICATIONS

### MICRODOR® FOAM

**Registration number 03446-H**

#### Product description:

**Microdor® Foam** is a dry foam that is specially formulated for use on pets, even on puppies or animals with sensitive skin. It is non-toxic and non-bactericidal, so it respects animals' bacterial flora and the pH of their skin.

**Microdor® Foam** contains a **zinc** derivative that eliminates odours by capturing the molecules that cause them. Its **conditioners** make it easier to brush the animal, and leave its fur shiny.

Contains: Zinc Ricinoleate at 0.32%, and conditioners (Neem extract at 0.50% and Panthenol at 0.5%). For use on animals.

#### Instructions for use and dosage:

Spread the foam over the animal or onto a brush or sponge, rub over the dry fur and remove with a clean, dry cloth. To complete the treatment of odours, apply **Microdor® body** daily.

#### Specifications:

Appearance: Transparent liquid	Density (g/ml): $1.00 \pm 0.05$
Colour: Practically colourless	pH (100%): $7.0 \pm 0.5$
