

ODOR TAB

Biological tablet for urinals

BIOTECHNOLOGICAL SPECIALITIES

GROUPS

ODOR TAB is a biotechnology tablet that is water soluble and contains a unique formula designed to eliminate problems of scale build-up, reduce bad smells and prevent problems of blockages and overflowing.

ODOR TAB contains:

Enzymes: proteases that break protein chains.

Selected microorganisms.

A combination of surfactants.

USE

ODOR TAB biological tablets can be used to treat all public urinals in restaurants, hotels, hospitals, transport stations (train, bus and plane), schools and workplaces.

ODOR TAB is formulated with strictly non-pathogenic microorganisms, according to European Directive 2000/54/EC.

ADVANTAGES

Eliminates bad smells

Eliminates scale build-up.

Prevents blockages and overflows.

Keeps pipes clean.

Does not contain acidic compounds or PDB.

Non-toxic, non-corrosive product.

Does not affect pipes or septic systems.

RECOMMENDATIONS FOR USE

The **ODOR TAB** tablet comes in individually wrapped blocks. To use, take off the plastic wrapping and drop into the urinal.

On average, one **ODOR TAB** tablet lasts 15 days.
